OpenText SAP Certifications

Certified integration with certified quality

Certified integration with certified quality

OpenText products for SAP® Solutions are certified by SAP in many categories:

- "Integration with SAP NetWeaver®"
- "Integration with SAP Applications"- FIORI app
- "Integration with Applications on SAP HANA®"
- "Integration with SAP S/4HANA"
- "Powered by SAP HANA®"

Certifications include interface certification like ArchiveLink and SAP ILM certification and SAP NetWeaver Output Management interfaces, as well as the Advanced Business Application Programming (ABAP) Add-On certification and certification for SAP Business Suite powered by SAP HANA and S/4HANA.

SAP Solution Extensions by OpenText are also qualified by SAP in the Premium Qualification tests to run on SAP Suite on HANA and S/4HANA.

In addition, OpenText and its SAP reseller products are "Enterprise Support Integration" certified by SAP.

Integration with SAP NetWeaver

SAP® Certified
Integration with SAP NetWeaver®

ArchiveLink Certification Guarantees Full Compatibility

The SAP ArchiveLink interface connects content management systems to SAP. It is a cross-application interface that provides SAP applications with archiving and imaging functionality and integrates content with SAP transactions. This interface is based on HTTP and a SAP NetWeaver BAPI interface.

The OpenText Archive Center and Archive Center Proxy components are certified for the current SAP ArchiveLink version 4.7 as HTTP Content Server. This guarantees full compatibility with the most current versions of SAP S/4HANA, SAP Business Applications and Industry Applications.

OpenText products certified in this category are:

- OpenText Archiving *for SAP Solutions*
- OpenText Document Access *for SAP Solutions*
- OpenText Extended ECM *for SAP Solutions*
- OpenText Archive Center *for SAP Solutions*, Cloud Edition

OpenText was the first vendor to certify for ArchiveLink version 4.7, which was released in the second half of 2013.

The additional ArchiveLink Load Test shows the superior performance of the OpenText Archive Center as archiving backend for Archiving, Document Access, Extended ECM *for SAP Solutions* and the archiving service of Archive Center *for SAP Solutions*, Cloud Edition.

WebDAV Storage Interface for SAP NetWeaver ILM Certification

SAP NetWeaver ILM extends the traditional SAP data archiving technologies with information lifecycle management capabilities, covering retention, holds and destruction. With this certification, customers receive the assurance that OpenText Archiving, Document Access and Extended ECM *for SAP Solutions* seamlessly integrate with SAP NetWeaver ILM via OpenText Content Suite Platform as an ILM enabled content store.

SAP Document Presentment by OpenText is certified for SAP Output Management interfaces

Our certified interfaces extend any SAP NetWeaver based business application like SAP ERP, SAP CRM or SAP SCM - with enhanced customer communication and support for document process automation. Based on OpenText StreamServe Connect *for SAP*, Document Presentment maintains *SAP Certified integration with SAP NetWeaver* for all output management scenarios, independent of which SAP output technology is used. Providing you with reliable output delivery and status monitoring, as well as certified handling of the native SAP data formats used for output.

Document Presentment for SAP Solutions was certified for XML Output for Smart Forms (BC-XSF 6.20).

Powered by SAP HANA®

“Powered by SAP HANA” applies to an application that is certified to run on SAP HANA as a platform, for example on the SAP HANA database. Partners can take advantage of the power of the SAP HANA Platform to develop new applications with advanced reporting analysis, and planning in a real time.

SAP offers certification for applications running on SAP HANA platform by the certification “HANA-APP”

OpenText products certified in this category are:

- OpenText Archiving for SAP Solutions (HANA-App 1.0)
- OpenText Document Access for SAP Solutions (HANA-APP 1.0)
- OpenText Extended ECM for SAP Solutions (HANA-APP 1.0)

All are certified via the OpenText Archive Server and OpenText Content Server running on SAP HANA database.

Integration with SAP Applications – FIORI App

SAP® Certified Integration with SAP Applications

An application that has SAP-certified integration with SAP® applications has proven to interoperate with one or more SAP applications using integration technologies such as a BAPI® programming interface, remote function call (RFC), or intermediate document (IDoc) technology.

This endorsement is also given for **Transactional Fiori apps**. Fiori apps are certified either to run on SAP Business Suite on traditional DBs (FIORI-APP-TA) or on SAP Business Suite on SAP HANA (FIORI-APP-TA oH).

OpenText products certified in this category with certified FIORI apps are:

- OpenText Business Center *for SAP Solutions* – Task App (FIORI-APP-TA)
- OpenText Vendor Invoice Management *for SAP Solutions* – Approval App (FIORI-APP-TA)

Integrations with SAP S/4HANA and SAP Business Suite on SAP HANA

SAP® Certified

Integration with SAP® S/4HANA

SAP® Certified

Integration with Applications on SAP HANA®

This certification applies to applications running on SAP S/4HANA and/or SAP Business Suite Powered by SAP HANA, also called “Suite on HANA” (SoH). SAP provides a number of pre-defined integration scenarios for partners to integrate to SAP S/4HANA and SAP Business Suite on HANA (see <http://scn.sap.com/docs/DOC-34927>).

One of them is the **ABPA Add-on certification ABAP-DEP**, the SAP integration scenario “ABAP Add-On Deployment on HANA for SAP NetWeaver”, which tests the ABAP Add-on as such and in addition the compatibility with S/4HANA and Suite on HANA.

OpenText products are certified for S/4HANA and Suite on HANA via the certification ABAP-DEP (ABAP Add-On Deployment Certification).

The following OpenText products are certified in this category:

- OpenText Archiving for SAP Solutions (ABAP-DEP)
- OpenText Document Access for SAP Solutions (ABAP-DEP)
- OpenText Extended ECM for SAP Solutions (ABAP-DEP)
- OpenText Employee File Management for SAP Solutions (ABAP-DEP)
- OpenText Vendor Invoice Management for SAP Solutions (ABAP-DEP)
- OpenText Invoice Capture Center (ABAP-DEP with Vendor Invoice Management)
- OpenText Digital Asset Management for SAP Solutions (ABAP-DEP)
- OpenText Document Presentment for SAP Solutions (ABAP-DEP)
- OpenText Business Center for SAP Solutions (ABAP-DEP)

SAP Solution Extensions by OpenText are qualified to run on SAP Suite on HANA and S/4HANA

SAP® Solution Extension

SAP Solutions Extensions by OpenText are tested by SAP Premium Qualification to be compatible with SAP Business Suite Powered by SAP HANA and S/4HANA

Premium Qualification for Suite Powered by on HANA are passed by

- SAP Archiving by OpenText
- SAP Digital Content Processing by OpenText
- SAP Document Access by OpenText
- SAP Extended ECM by OpenText
- SAP Content Management for Microsoft SharePoint by OpenText
- SAP Document Presentment by OpenText
- SAP Document Presentment add-on for Business Correspondence
- SAP Invoice Management by OpenText with OCR option
- SAP Employee File Management by OpenText
- SAP Digital Asset Management by OpenText

Please note:

Qualification is different from certification. The SAP Premium Qualification procedure is much more comprehensive than standard SAP certification.

SAP Invoice Management by OpenText is qualified to run on SAP Simple Finance 1503

SAP Invoice Management by OpenText 7.0 and 7.5 as well as SAP OCR Option to Invoice Management by OpenText 7.0 and 7.5 have passed the Premium Qualification for SAP Simple Finance 1503 (release March 2015)

With this, SAP Invoice Management and SAP OCR Option offers the proven supplier invoice automation to the adopters of SAP Simple Finance 1503.

Enterprise Support Certification

Open Text and Its SAP Reseller Products are "Enterprise Support Integration" Certified

"Enterprise Support Integration" applies to applications that connect to the SAP global support backbone and have built-in support for incident processing and remote diagnostics using the partner edition of SAP Solution Manager. The certification indicates that OpenText is a software solution partner that uses SAP Solution Manager during support operations for its applications and conforms to SAP standards for shared support processes, service-level agreements, and escalation procedures. As a result, the certified applications can obtain efficient support from both the SAP support organization and OpenText.

SAP Certificates - Links and Resources

The [SAP Certified Solution Directory](#) lists all certified products and vendors. All OpenText certifications for Suite for SAP are listed in the SAP partner directory [under "OpenText Software GmbH"](#)

The ["SAP Integration and Certification Center" \(ICC\)](#) provides an overview over all possible integration scenarios and certifications.
